VZ 200/300

HUNTER VALLEY

VZ JOURNAL

�֍ FIFTH BIRTHDAY �֍
TRACK FORMATTER
HISTORY USER GROUPS
LASER LIGHT PEN
EPROM PROGRAMMER
LOTTO SELECTOR
WAVZ USER GROUP

     AFTER A LONG ABSENCE ANOTHER USEFUL UTILITY FROM DAVE. THIS ONE
WILL FORMATT A SINGLE TRACK INSTEAD OF THE WHOLE DISK. VERY USEFUL
WITH TRACK ZERO.

     BOB PRESENTS THE CONCLUDING ARTICLE ON THE HISTORY OF VZ USER
GROUPS IN BOTH AUSTRALIA AND NEW ZEALAND. INTERSTING READING.

     AFTER YOU'VE ENTERED PROGRAM YOU'LL HAVE TO REFER PREVIOUS ARTICLE
FOR SOME OF ITS USES.

     THIS IS NOT A FULL BLOWN PROJECT AS ONLY BASIC CONSTRUCTION
DETAILS ARE GIVEN. THE CIRCUIT IS OF THE LASER LIGHTPEN WHICH WAS
IMPORTED INTO AUSTRALIA IN LIMITED QUANTITIES.

     THIS IS THE LAST IN HERMAN'S UPDATE ON THE EPROM PROGRAMMER AND
AGAIN I WAS ABLE TO COMPRESS THE REMAINING PAGES TO TWO.

     TAPE SAVE/LOAD AND POOLS CHANGES HAVE BEEN ADDED TOGETHER WITH
SOME MINOR CHANGES TO HARD COPY ROUTINES AS WELL.

     I ASKED GRAEME FOR SOME INFO ON WAVZ GROUP SO I COULD INCLUDE IT
IN BOB KITCH'S ARTICLE AND ENDED UP WITH A HISTORY OF THEIR GROUP,
THEIR TRIALS AND TRIBULATIONS PLUS SOME FUNNY EPISODES.

HV VZ UG & JOURNAL FIFTH BIRTHDAY :

THE CLUBS PUBLICATION IS 5 YEARS OLD AND 4.5 YEARS AS EDITOR FOR ME. IT HAS BEEN A LONG TIME AND I COULD'NT HAVE DONE IT WITHOUT YOUR SUPPORT BOTH AS A SUBSCRIBER AND CONTRIBUTOR.

THANK YOU DAVE MITCHELL :

THE HV VZ UG OWES DAVE A GREAT DEBT. HE HAS MADE AVAILABLE HIS E&F DISK WP PATCHES AS A FUND RAISER FOR THE CLUB WHICH HAS HELPED THE CLUB FINANCIALLY TO SURVIVE. WE COULD'NT HAVE DONE IT WITHOUT YOU DAVE. THANK YOU .

FUTURE HV VZ UG CLUB MEETINGS :

THE JUNE 7 MEETING WILL BE THE LAST AT JESMOND NEIGHBOURHOOD CENTRE. FUTURE MEETINGS WILL BE HELD AT MEMBERS PLACES STARTING WITH JOE LEON ON JULY 5. SEE PAGE 20 FOR MORE DETAILS.

WANTED TO BUY — VZ DISK CONTROLLERS :

IF YOU HAVE ONE FOR SALE OR YOU KNOW OF A DICK SMITH STORE THAT HAS SOME UNITS LEFT PLEASE LET ME KNOW.

JOE LEON 22 DRURY STREET WALLSEND 2287 (049) 512 756

WANTED TO BUY — VZ 200 IN GOOD ORDER :

BEN IS STILL AFTER A VZ 200 IN GOOD WORKING ORDER AND WILL PAY A REASONABLE PRICE. IF YOU CAN HELP PLEASE CONTACT:

BEN HOBSON PO BOX 255 QUIRINDI NSW 2343

HINTS & TIPS — PAPER CLIPS :

RECENTLY I HAD SOME MAJOR PROBLEMS WITH PAPER CLIPS, THE METAL VARIETY. I HAD TO FIND SOME DOCUMENTS AND INSTRUCTIONS FOR SOME PROGRAMS, ETC. IN ALL CASES I HAD USED METAL PAPER CLIPS AND WOULD YOU BELIEVE THEY WERE ALL RUSTED MARKING THE PAPER AND TEXT.

THE SOLUTION IS SIMPLE, USE PLASTIC OR PLASTIC COATED METAL TYPES. THE LATTER IS MORE EXPENSIVE BUT WORTH IT IF YOU WANT TO PRESERVE YOUR DOCUMENTS IN PRIME CONDITION.

VZ 200/300 INTERNAL 32K RAM MODS :

BOTH ABOVE PROJECTS APPEARED IN PREVIOUS ISSUES AND WORK AS DESIGNED. I FAILED TO MENTION THAT USERS OF WORDPRO CARTRIDGE WORD PROCESSOR WOULD NOT BE ABLE TO USE THEM AS THERE WOULD BE TOO MUCH MEMORY FOR IT TO OPERATE, 12K IN FACT.

THE SOLUTION IS SIMPLE. SOME MEMORY HAS TO BE DISABLED AT D000F-FFFFH VIA A SPDT SWITCH. A14 TO 32K RAM HAS TO BE CUT AND THE END FROM 32K RAM PIN 2 GOES TO THE CENTRE OF THE SWITCH. ONE SIDE GOES TO OTHER CUT WIRE WHILE THE OTHER SIDE IS GROUNDED. GROUNDING A14 ON 32K RAM TURNS IT INTO A 16K RAM.

THERE IS ANOTHER SOLUTION AS WELL, A DISK VERSION OF THE CARTRIDGE. AS A BONUS AN EXTRA 2K OF MEMORY IS AVAILABLE FOR TEXT BUT IT WILL ONLY WORK IF YOU HAVE DONE THE INTERNAL 32K MEMORY MOD OR HAVE A 64K MEMORY EXPANSION OR DONE THE VZ 200 SUPER II MODS.

VZ 200/300 144K MEMORY EXPANSION :

AT LONG LAST I HAVE IT UP AND RUNNING AND IT WILL BE DEMONSTRATED AT NEXT CLUB MEETING. I USED 2 X 8K AND 1 X 128K RAM CHIPS. IT GIVES ME 8 X 16K BANKS AND THEY ALL RESIDE AT C000H-FFFFH (49152-65535). THAT IS A LOT OF MEMORY FOR THE HUMBLE VZ. THE QUESTION IS WHAT TO DO WITH ALL THAT EXTRA MEMORY. ANY IDEAS? 144K PROJECT IN NEXT ISSUE.

THIS PROGRAM HAS BEEN A LONG TIME COMMING. IT WAS PLAGUED WITH BUGS HOWEVER HERE IS A PROGRAM THAT WILL FORMATT SINGLE TRACKS.

THE PROGRAM ONCE RUN WILL BEEP TO LET YOU KNOW IT HAS BEEN LOADED FROM DISK. THE USR ROUTINE WILL BE SET UP SO YOU CAN RE-ENTER THE PROGRAM IF YOU BREAK OUT OF IT. EG: PRINT USR(0)

DISPLAYED ON THE SCREEN WILL BE :-

```
    SINGLE TRACK FORMATT
    BY D.MITCHELL
ENTER TRACK NUMBER :
```

THE TRACK NUMBER IS TO BE ENTERED IN HEX. A WORD OF WARNING:- IF A TRACK ALREADY HAS DATA, IT WILL BE LOST IF YOU FORMATT THIS TRACK.

WHEN A TRACK HAS BEEN FORMATTED THE PROGRAM RESTARTS WITH THE BEEP TO LET YOU KNOW IT IS COMPLETED. THIS PROGRAM IS USEFULL WHEN DATA IS LOST FROM TRACK ZERO.

FORMATT BASIC LISTING :

```

EDITOR'S COMMENT:

FORMATT IS ONE OF A TRILOGY OF PROGRAMS WRITTEN BY DAVE MITCHELL WHICH WERE DESIGNED TO COMPLEMENT EACH OTHER. THE OTHER TWO ARE DISK FILER (REVIEW NEXT ISSUE) AND LABEL-II WHICH WILL APPEAR IN NEXT ISSUE. FORMATT WAS PRIMARELY DESIGNED TO WIPE TRACK 0 CLEAN WHICH IT DOES VERY WELL. I FOUND FROM TRACK 3 ON IT MISSED.

LIKE MOST DISK USERS ON MANY OCCASIONS I COULD'NT GET A DISK DIRECTORY SIMPLY BECAUSE TRACK 0 WAS CORRUPTED ALTHOUGH THE DATA WAS STILL INTACT. USING DAVE'S THREE PROGRAMS I CAN NOW RESURRECT MOST OF THESE DISKS WHICH IS FAIRLY SIMPLE. EG:

1) FORMATT IS USED TO RE-FORMATT TRACK 0.
2) LABEL-II IS USED TO RE-ENTER THE DISK DIRECTORY INFORMATION AND AS A BONUS LABEL-II AUTOMATICALLY UPDATES THE TRACK MAP FOR ME.
3) BEFORE YOU CAN USE LABEL-II YOU MUST KNOW EXACTLY WHAT WAS IN THE DIRECTORY AND DISK FILER CAN PROVIDE THAT INFORMATION ON ALL YOUR PROGRAMS, EG:

FILETYPE, FILENAME, TRACK & SECTOR NUMBER, START & END ADDRESS.

NOTE: I USED FORMATT TO WIPE TRACK 0 ON A DISK CONTAINING OVER 12 DIRECTORY FILES AND USING ABOVE PROCEDURE I WAS ABLE TO RESTORE ALL PROGRAMS QUITE EASILY. ALSO IF YOU ERASE A FILE YOU CAN USE LABEL-II TO RESTORE IT PROVIDED YOU DON'T OVER-WRITE IT BEFOREHAND.

5. ACROSS THE TASMAN.

THE VZ WAS SOLD BY DSE STORES IN NEW ZEALAND AND IN JULY 1984 A USER GROUP COMMENCED IN CHRISTCHURCH. THEY PRODUCED A "CHRISTCHURCH VZ USER GROUP NEWSLETTER" ON A MONTHLY BASIS UP UNTIL APRIL 1988 WHEN INTEREST WANED. THEIR NEWSLETTERS ARE FULL OF BASIC PROGRAMS AND ARE VERY CHATTY WITH DETAILS OF THEIR REGULAR MONTHLY MEETINGS.

6. LYSCO FROM WA.

THE LEON YOUNG SOFTWARE COMPANY SPRANG UP IN PERTH IN LATE 1984. (ACTUAL DATES ARE UNCERTAIN AS LEON DID NOT DATE HIS NEWSLETTERS.) HE ALSO SUPPORTED THE AMSTRAD AND COMMODORE COMPUTERS. LEON'S NEWSLETTERS AND CATALOGS WERE FAIRLY INFORMAL NOTES BUT CONTAINED A NUMBER OF USEFUL TIPS ON THE VZ AS WELL AS ADVERTISEMENTS FOR HIS SOFTWARE. I HAVE ABOUT 10 NEWSLETTERS IN ALL DATED AROUND NOVEMBER 1984 TO HIS WIND-UP IN JULY 1986.

7. ANOTHER IN NZ.

IN DECEMBER 1984 ANOTHER USER GROUP WAS UNDERWAY IN AUCKLAND, NEW ZEALAND. THEY PRODUCED "XILOG THE MICROCOMPUTER MAGAZINE FOR VZ200, VZ300 AND AQUARIUS USERS" – SUGGESTING THEIR TIES WITH DSE. I HAVE AN INCOMPLETE SET OF XILOG BUT IT IS FULL OF INTERESTING SNIPPETS FOR THE VZ USER. MY LAST EDITION IS #8 DATED AUGUST 1985. DOES ANYONE KNOW ANY MORE ABOUT THIS CLUB?

8. OUT WEST IN NSW.

ALSO IN LATE 1984, MR. RICK SWANCOTT ORGANIZED A SMALL USER GROUP IN THE WESTERN SUBURBS OF SYDNEY. THEY PRODUCED 2 SMALL NEWSLETTERS AROUND DECEMBER 1984, ENTITLED "OUT WEST VZ-200 USER GROUP". IT WAS FILLED WITH BASIC GAMES.

9. FROM THE TROPICS..

I FIRST CORRESPONDED WITH MR. GORDON BROWELL IN DARWIN IN LATE 1985. GORDON WAS RUNNING THE "AD LIB VEEZEE MICRO CLUB". HE PRODUCED INFORMAL NOTES AND PROGRAMS AND FREELY CIRCULATED THESE TO ANY INTERESTED CORRESPONDENTS. THE INFORMALITY OF THIS ARRANGEMENT SUBSEQUENTLY RESULTED IN HIS PRODUCTION OF TWO EXCELLENT BEGINNERS SERIES. THE FIRST WAS "MICRO MAGIC – BEGINNERS GUIDE TO THE VEE ZED" IN 6 PARTS, AND THE SECOND WAS "STUDIO AD LIB – MICRO MAGIC WORKSHOP" ALSO IN 6 PARTS. THEY ARE EXCELLENTLY WRITTEN AND PRODUCED SERIES.

SOMEWHERE AROUND 1985, GORDON MOVED TO BIGGENDEN IN SOUTH-EAST QUEENSLAND BUT UNFORTUNATELY HE HAS MORE RECENTLY BECOME INVOLVED IN OTHER COMPUTERS.

10. ANOTHER BRISBANE GROUP.

MR. MICHAEL NOVAKOVIC, A SECONDARY STUDENT AT THE TIME, AND LIVING AT GOODNA, A WESTERN SUBURB OF BRISBANE, PRODUCED 4 NEWSLETTERS. IT WAS CALLED "VZCOMPU200/300" AND RAN FROM DECEMBER 1985 TO APRIL 1986. MICHAEL EXPERIMENTED WITH MACHINE CODE AND POKE'S TO THE COMMUNICATION REGION!

11. YET ANOTHER IN NSW.

IN JANUARY 1986, MR. MARK HARWOOD PUBLISHED THE FIRST EDITION OF "VZ USER". HE PRODUCED 22 ISSUES AND FINISHED IN SEPTEMBER 1988.

MARK WAS A TERTIARY STUDENT UNDERTAKING ELECTRICAL ENGINEERING STUDIES. HIS NEWSLETTER CONTAINED A NUMBER OF IN-DEPTH FEATURES ON THE VZ. HE ALSO GAVE AN INTRODUCTION TO VZDOS-IN-ROM THAT HAS NOT BEEN BETTERED ELSEWHERE. MARK ALSO DEVELOPED SOME EXCELLENT SOFTWARE IN CONJUNCTION WITH GAVIN WILLIAMSON OF LASERLINK.

12. ANOTHER NSW CLUB.

THE HUNTER VALLEY REGION OF NSW HAS BEEN WELL SERVED SINCE JUNE 1986 BY THE "HUNTER VALLEY VZ USERS GROUP NEWSLETTER" (NOW JOURNAL). MR GAVIN WILLIAMSON PRODUCED THE FIRST 6 NEWSLETTERS BUT MR. JOE LEON HAS PRODUCED UP TO THE CURRENT EDITION #35. THIS NEWSLETTER IS STILL UNDERWAY AND IS PRODUCED BI-MONTHLY. THE NEWSLETTERS ARE CONSISTENTLY PACKED WITH PROGRAMS AND HARDWARE MODIFICATIONS.

13. AND BACK TO VICTORIA.

SCOTT LE BRUN WAS A VERY PROLIFIC WRITER OF ADVENTURE GAMES FOR THE VZ. IN AUGUST 1986 HE BEGAN PUBLICATION OF "VEEZED DOWN UNDER". SCOTT ALSO RAN MONTHLY MEETINGS FROM HIS HOME. SCOTT PRODUCED 13 EDITIONS BEFORE THE ILLUSTRIOUS HARRY HUGGINS TOOK OVER IN SEPTEMBER 1988. HARRY HAS SINCE PRODUCED NUMBER 28 AND IS STILL GOING STRONG. HARRY HAS ALSO ACQUIRED THE REMAINING VZ HARDWARE FROM DSE. IF YOU ARE EVER PASSING THROUGH MELBOURNE, PLAN TO SPEND AN EVENING WITH HARRY.

14. ANOTHER AUCKLAND CLUB.

IN OCTOBER 1986 PETER HILL COMMENCED THE AUCKLAND VZ300/200 USERS CLUB. SINCE THAT TIME PETER HAS PRODUCED ON A MONTHLY BASIS A CREDITABLE 50 EDITIONS OF "VZ-LINK". THE AUCKLAND CLUB IS STILL GOING STRONG AND HAS A MONTHLY MEETING IN THE CITY - AFTERNOON TEA AND A CUPPA PROVIDED.

15. AN INFORMAL BRISBANE GROUP.

A GROUP OF ENTHUSIASTS IN BRISBANE DECIDED TO HOLD MONTHLY MEETINGS WITHOUT PRODUCING A NEWSLETTER AS, AT THE TIME, JOHN D'ALTON WAS CARRYING OUT THIS FUNCTION. THIS GROUP MEETS ON THE FIRST SATURDAY OF EACH MONTH AT STAN NOBLE'S HOUSE. THIS GROUP IS EVOLVING TOWARDS A COMPUTER INTEREST GROUP AS MOST OF THE MEMBERS HAVE NOW PURCHASED PC'S. THE VZ STILL GETS A HAMMERING AND SOME NEW-COMERS REGULARLY APPEAR.

16. A NEW INNOVATION.

LAST YEAR JASON OAKLEY OF SAPPHIRE PRODUCTIONS PRODUCED 2 EDITIONS OF HIS EXCELLENT "DISKMAG". THIS IS A MAGAZINE ON DISK FOR THE VZ. JASON NEEDS ALL THE SUPPORT HE CAN GET TO CONTINUE HIS EFFORTS.

17. AN OLD INNOVATION. BY JOE LEON

J&R SOFTWARE STARTED A VZ TAPE NEWSLETTER SOMETIME IN 1984 AND AT THE MOMENT I HAVE ONLY ONE COPY, VOL.1 NO.3 WHICH IS THE LAST ONE I RECEIVED AROUND JANUARY 1985. IT WASN'T A NEWSLETTER AS SUCH BUT MAINLY A VECHICLE TO ADVERTISE HIS WARES, BOTH SOFTWARE AND HARDWARE WHICH WAS QUITE COMPREHENSIVE FOR THE VZ 200.

18. ANOTHER WESTRALIAN GROUP.

VZ 200/300 (LASER) LIGHT PEN

A LIGHT PEN IS AN INPUT DEVICE BETWEEN A COMPUTER AND ITS MONITOR SCREEN AND NEEDS A PROGRAM OR ROUTINE TO CONTROL IT, JUST LIKE A JOYSTICK. ON THE VZ IT'S NOT VERY ACCURATE AND MONITOR SCREEN CONTRAST AND BRIGHTNESS PLAY A BIG PART IN ITS OPERATION.

ONLY A LIMITED NUMBER OF VZ (LASER) LIGHT PENS WERE EVER IMPORTED INTO AUSTRALIA AND I HAD ONE FOR YEARS ALONG WITH ABOUT FIVE PROGRAMS WHICH WERE AVAILABLE FOR IT. RECENTLY I CAME INTO POSESSION OF THE CIRCUIT DIAGRAM WHICH IS REPRODUCED ON PREVIOUS PAGE. IT'S MAIN PURPOSE IS TO SUPPLEMENT THE TECHNICAL REFERENCE MANUAL.

THIS ALLOWS OTHER VZ USERS TO MAKE THEIR OWN AS IT ONLY USES A FEW COMPONENTS AND THE CIRCUIT IS FAIRLY STRAIGHT FORWARD. THE 74LS138 DECODES I/O PORT A64 TO A79 AND IS A READ ONLY PORT. DATA BITS 6 AND 7 ARE USED FOR SCREEN LOCATION INPUT WHICH IS GENERATED BY LM311 A VOLTAGE COMPARATOR.

I SEE NO REASON WHY THE UNIT SHOULD INTERFERE WITH NORMAL VZ OPERATIONS AS THE DATA BITS 6 AND 7 ARE CONTROLLED BY TRISTATE BUFFERS. YOU MAY HAVE TO TRANSPOSE THE RESISTOR AND CAPACITOR MARKED BY ASTERICKS TO GET THE UNIT TO WORK.

CONSTRUCTION OF MAIN UNIT:

THE UNIT SHOULD FIT QUITE EASILY INTO THE PRINTER INTERFACE OR EVEN THE VZ ITSELF. TIME DID NOT PERMIT ME TO PREPARE A VEROBOARD LAYOUT AND I LEAVE THAT TO YOU. THE PIN OUTS FOR ALL IC'S ARE SHOWN TO MAKE CONSTRUCTION EASIER. IF THE DEMAND WAS THERE I COULD DESIGN IT AND PRESENT IT IN A FUTURE ISSUE, BUT AT THE MOMENT I'LL BE FAIRLY BUSY FOR A WHILE. USE A 3.5MM STEREO SOCKET AS AN INPUT SOCKET FOR THE LIGHT PEN.

LIGHT PEN CONSTRUCTION:

AN ARTLINE TYPE MARKER PEN OF ABOUT 15MM DIAMETER IS IDEAL FOR IT AND ONE WITH A BLACK NOSE CONE WOULD BE BEST AS IT'S OPAQUE. REMOVE THE INSIDES OF THE PEN AND NOSE CONE FIRST AND WIPE CLEAN BEFORE USE. THE FPT100 PHOTO TRANSISTOR HAS TO GO INSIDE THE NOSE CONE AS SHOWN IN THE DIAGRAM BUT NOT TOO CLOSE TO THE FRONT AS INCIDENTAL LIGHT COULD AFFECT ITS OPERATION.

ON A SAMPLE PEN CASING I USED A SUBMINI PUSH BUTTON SWITCH MOUNTED NEAR THE FRONT IN A POSITION WHERE IT WAS EASY FOR THE FINGER TO OPERATE. THE CABLE GOES OUT THE END OF THE PEN OR YOU COULD MOUNT A 3.5MM STEREO SOCKET THERE AND USE A STEREO CABLE WITH A 3.5MM STEREO PLUG AT EACH END. THIS MAKES STORING THE UNIT MUCH EASIER.

. LIGHT PEN PROGRAMS & PROGRAMMING:

I CAN'T ADVISE YOU ON PROGRAMMING AS I'VE NEVER DONE IT MYSELF. I USED COMMERCIAL PROGRAMS WHICH ARE:

1) LIGHT PEN DEMONSTRATION PROGRAMS WHICH CAME WITH LASER LIGHTPEN.
2) DRAWING BOARD (HI-RES DRAWING PROGRAM).
3) MAGIC PAINT (HI-RES DRAWING PROGRAM).
4) JIGSAW (HI-RES JIGSAW OF A WINDMILL WHICH YOU HAVE TO RE-ASSEMBLE.
5) MYSTERY BOX (40 LO-RES BOXES SIMILAR TO MATCH BOX GAME).

TO BE QUITE HONEST I HARDLY EVER USE THE LIGHT PEN AND I DONT KNOW OF ANYONE THAT DOES USE IT FOR SERIOUS APPLICATIONS. AS FAR AS THE VZ IS CONCERNED I FEEL IT'S MORE OF A GADGET THAN A USEFUL TOOL.

THE PROGRAM CONSISTS OF TWO PARTS, ONE PART OF WHICH IS WRITTEN IN BASIC, THE OTHER IN MACHINE CODE. THE MACHINE CODE PART (OR SUBROUTINE) DOES THE ACTUAL COMPARISON. THE BASIC PART STORES THE EPROM SIZE AT MEMORY LOCATIONS 8502H AND 8503H AND THEN CALLS THE MACHINE CODE SUBROUTINE. THE LATTER COMPARES THE TWO EPROMS AND STORES AN ADDRESS VALUE IN LOCATIONS 8500H AND 8501H BEFORE RETURNING TO THE MAIN PROGRAM. IF THE STORED ADDRESS VALUE CORRESPONDS TO THE EPROM SIZE, THEN THE TWO EPROMS COMPARE OK. IF NOT, THEN THE STORED VALUE CORRESPONDS TO THE NUMBER OF BYTES CHECKED BEFORE THE MACHINE CODE SUBROUTINE HAS FOUND A DATA MISMATCH BETWEEN THE TWO EPROMS.

BELOW IS A LISTING OF THE MACHINE AND SOURCE CODE ROUTINE WHICH DOES THE ACTUAL COMPARISON OF THE TWO EPROMS.

TAPE LOAD/SAVE MODIFICATIONS:

MAKE SURE YOU HAVE BACKUP OF PROGRAM ON TAPE FIRST BEFORE DOING ANY CHANGES. SOME OLD LINES MUST BE DELETED BEFORE YOU CAN ENTER NEW LINES. LOAD PROGRAM INTO MEMORY AND ENTER THE FOLLOWING LINE NUMBERS PRESSING RETURN AFTER EACH NUMBER.

520 800 805 810 815 820 916

THE TAPE LOAD/SAVE CHANGES ARE IN LINES 505-650 AND CONSIST MAINLY OF CHANGING PR# TO PRINT# AND IN# TO INPUT# AND DELETING OPEN AND CLOSE STATEMENTS. START BY ENTERING LINE 10 AND CONTINUE TILL ALL LINES HAVE BEEN ENTERED. SAVE THE PROGRAM EVERY NOW AND THEN SO YOU DON'T LOSE YOUR CHANGES IN CASE OF VZ HANG UPS OR CRASHES.

NORMALLY WHEN DATA IS LOADED FROM TAPE USING INPUT#, THE WAITING AND FOUND MESSAGES APPEAR ON THE SCREEN WHICH MAKES A MESS OF THE DISPLAY. THE POKE 30796,1 IN LINE 605 DISABLES BOTH MESSAGES. SO YOU KNOW THAT DATA IS BEING LOADED CORRECTLY LINES 610, 620, 625, 640 AND 645 DISPLAY THE INFORMATION AS IT'S BEING LOADED FROM TAPE, EG:.

LOADING/SAVING DATA GN SN GN EL DATA
                      4 6   2 5 34

```
   GN = NUMBER OF GAMES SELECTED
   SN = SYSTEM NUMBER SELECTED
   GN = NUMBER OF GAME BEING LOADED
   EL = NUMBER OF SYSTEM ELEMENT BEING LOADED
 DATA = LOTTO OR POOLS NUMBERS BEING LOADED
```

WHEN LOADING THE TITLE AT TOP OF SCREEN IS ALSO UPDATED WITH LOTTO OR POOLS PLUS YR/WK AS WELL. THE SAME INFORMATION IS ALSO PRESENTED ON SCREEN WHEN SAVING DATA TO TAPE.

BESIDES THE TAPE SAVE/LOAD ROUTINES, OTHERS HAVE BEEN MODIFIED AS WELL LIKE PRINTER DUMP, MAIN MENU, POOLS GAME ADDED.

POOLS MODIFICATIONS:

THESE MODS ARE MORE INVOLVED THAN PREVIOUS ONES AND WITH THE INFORMATION PRESENTED HERE YOU SHOULD BE ABLE TO MODIFY IT TO A DIFFERENT GAME/SYSTEM NUMBER COMBINATION.

LINE 215, THE 44 IN RND(44) HAS BEEN CHANGED TO A VARIABLE RND(RN) TO CATER FOR BOTH LOTTO AND POOLS.

LINES 958 AND 962 SET RN FOR LOTTO OR POOLS TOGETHER WITH A FLAG INDICATING WHICH ONE WAS SELECTED.

LINE 140 CHECKS FOR SYSTEM GREATER THAN 6 AND STEERS IT TO ITS APPROPRIATE INPUT ROUTINE.

LINE 142 CHECKS FOR POOLS SYSTEM 6 AND SENDS IT TO ITS INPUT ROUTINE.

LINES 150 TO 154 IS THE LOTTO NUMBER OF GAMES INPUT ROUTINE. LINE 154 CHECKS FOR SYSTEM 6 GAMES RULES.

LINES 160 TO 164 IS THE POOLS NUMBER OF GAMES INPUT ROUTINE. LINE 164 CHECKS FOR SYSTEM 6 GAMES RULES.

LINES 170 TO 174 IS THE LOTTO/POOLS SYSTEM NUMBER > 7 NUMBER OF GAMES INPUT ROUTINE. LINE 174 CHECKS FOR SYSTEM 7 OR GREATER GAMES RULES.

IN SHORT THE THREE ABOVE ROUTINES MAKE SURE YOU DON'T PLAY AN INVALID SYSTEM/GAME COMBINATION.

HARD COPY (PRINTER) ROUTINE:

LINES 415 TO 440 CONTAIN THE CHANGES TO THE ROUTINE. THE MAIN DIFFERENCE IS THAT THE PRINT OUT MATCHES THE SCREEN DISPLAY AND LOOKS MUCH TIDIER THAN BEFORE. THE SAMPLE GAMES BELOW SHOW THE NEW LOOK.

VZ LOTTO SELECTOR YR 91 WK 120

```
#1:  11 21 25 27 32 43
#2:   6 10 11 28 34 43
#3:  21 30 32 33 40 43
#4:   6 33 35 36 38 40
```

VZ POOLS SELECTOR YR 91 WK 120

```
#1:   1  8 12 14 17 18 19 20 21
     22 23 24 27 30 34 35 37 38
#2:   5  6  8 10 11 12 13 15 20
     24 25 28 29 33 34 35 36 38
```

AS YOU CAN SEE WHETHER YOU'RE PLAYING LOTTO SYSTEM # 6 OR POOLS SYSTEM # 18 THE PRINTOUT (HARD COPY) IS NICE AND NEAT WITH THE NUMBERS NICELY FORMATTED THANKS TO THE USE OF PRINT USING FUNCTION.

PLANNED FUTURE ENHANCEMENTS:

MAJOR DISK ROUTINES WITH ALL DISK FUNCTIONS.
WINNING NUMBERS CHECKING ROUTINE, WILL LET YOU KNOW IF YOU WIN.
MANUAL ENTRY OF GAMES CHOSEN ANOTHER WAY LIKE BIRTHDAYS, ETC.
FRQUENCY OF WINNING NUMBERS SO YOU CAN PLAN YOUR BIG WIN.

NOTE: NO RESPONSIBILITY TAKEN FOR ANY ERRORS.

NEXT ISSUE: MAJOR DISK CHANGES . . .

Group by Graeme Bywater

OUR GROUP STARTED OF WITH A NOTICE IN THE WESTERN AUSTRALIAN NEWSPAPER IN FEBRUARY 1984; SAYING IF THERE IS ANYBODY INTERESTED IN MAKING A VZ 200 USERS' CLUB CONTACT ----. SO I RANG THIS NUMBER, AND ANDRE SCHOEN ANSWERED THE PHONE. AFTER WHICH I WAS GIVEN THE ADDRESS AND A MEETING NIGHT.

WHEN I ARRIVED AT ANDRE'S HOUSE, I FOUND 4 OR 5 PEOPLE AND IT WAS DECIDED TO HAVE FORTNIGHTLY MEETINGS THERE AND WE ALL HAD A GENERAL DISCUSSION ABOUT THE VZ. SOME WEEKS LATER, WITH A MEMBERSHIP OF ABOUT TWELVE, ANDRE SUGGESTED IT'S ABOUT TIME THAT WE HAD A CLUB NAME AND ELECTION OF OFFICERS. AFTER SOME DISCUSSION OF DIFFERENT NAMES OF THE CLUB, WE ALL SETTLED ON WAVZ STANDING FOR WEST AUSTRALIAN VZ 200 USERS' CLUB AND WHEN THE VZ 300 CAME TO WA, THE /300 WAS ADDED.

AS ANDRE STARTED THE CLUB, IT WAS DEEMED THAT HE BECAME PRESIDENT AND TREASURER AND DAVID ADAMS SECRETARY, RUSS HARVEY LIBRARIAN AND THE FEES TO BE $5.00. AT ONE STAGE, IT WAS TALKED ABOUT MOVING OUT OF A SMALL ROOM IN THE HOUSE AN GOING TO THE LEEDERVILLE TECHNICAL COLLEGE TO TRY AND GAIN MORE MEMBERSHIP. WE SET UP SHOP IN A BOARD ROOM WITH OUR COMPUTERS. FROM TIME TO TIME WE HAD INTERESTED PARTIES COME AND GO, BUT THE COLLEGE'S TERM HOLIDAYS DID NOT HELP OUR CAUSE WHEN THE DOORS WERE CLOSED. WE WERE THERE FOR A YEAR.

IT WAS UNWORKABLE TO BE AT THE COLLEGE AS WE STILL HAD A SMALL MEMBERSHIP. RUSS HARVEY OFFERED HIS PLACE AS A MEETING PLACE, WE WERE THERE FOR ABOUT THREE YEARS. OUR MEMBERSHIP DID FALL DOWN TO A LOW NUMBER OF ABOUT FIVE WITH THE LOSS OF ANDRE WHO MOVED INTERSTATE.

AT ONE STAGE DICK SMITH HAD A JOHN HALLEM WORKING FOR THEM. ONE OF HIS JOBS WAS TO PROMOTE TH VZ, AND TRY GAIN MORE MEMBERSHIP. BUT THROUGH TIME IT FELL THROUGH NOT FOR WANT OF TRYING.

TO KEEP CLUB VIABLE, I TOOK OVER NOT AS PRESIDENT BUT AS A SENIOR MEMBER, WHERE I DID HAVE AT MY HOUSE. IN TRYING TO GAIN MORE MEMBERSHIP (IN THE MEAN TIME WE GAINED TWO MORE MEMBERS) WE FOR A YEAR HAD OUR MEETING AT A POLICE BOYS CLUB SMALL ROOM WHERE WE PAID A DOLLAR A HEAD AND SOME TIMES ONLY TWO OF US SHOWED UP. SINCE THEN, IT HAS BEEN MOSTLY AT MY PLACE AND FROM TIME TO TIME AT OTHER MEMBERS PLACES. I DECIDED BECAUSE THE LACK OF MEMBERSHIP TO CALL OURSELVES AN ENTHUSIASTS GROUP. AS WE DID NOT HAVE A BIG MEMBERSHIP, IT WAS NOT WORTH A NEWSLETTER EVEN THOUGH REX GLADDING PUT SAMPLE ONE ON A SHEET OF PAPER ONCE.

IN 1986 I RECEIVED A PHONE CALL FROM A MR RON CHELL, WOULD THE CLUB BE INTERESTED IN DOING A POINT SCORING SYSTEM FOR THE AUSTRALIAN SPEEDCAR DRIVERS CHAMPIONSHIPS? AFTER CONSULTATION WITH OTHER MEMBERS I SAID YES. SO IN JANUARY 1987 WITH TWO SETS OF COMPUTERS, CASSETTES, DISK DRIVES, PRINTERS AND TV SETS AND A PROGRAM WHICH WAS ORIGINALLY MADE BY ANDRE SCHOEN AND ADAPTED BY PETER DODD IN SOUTH AUSTRALIA FOR THE SPEEDCARS.

WE WERE SET UP ON THE INFIELD WHERE THE PLACE-GETTING STEWARDS GAVE US THE RESULTS FOR OUR COMPUTERS AND AFTER EACH HEAT WE DO A SORT OF POINTS OF DRIVER'S CAR NUMBERS AND THEN PRINT OUT FOR THE STEWARDS AND THE COMMENTATOR. THE SECOND NIGHT OF THE SPEEDWAY, IT STARTED TO RAIN. IT WAS A MAD SCRAMBLE TO COVER OUR STILL TURNED ON GEAR WITH TARPAULINS AND US SITTING UNDER THE TABLES ON THE GRASS HANGING ON TO THE ENDS OF THE TARPS AND HOPING THAT THERE WONT BE AN UNWANTED BIG FIREWORKS DISPLAY FROM OUR DIRECTION. THE REST OF THE MEETING WAS POSTPONED TO MONDAY NIGHT.

In October 1990, I received a speedway calendar of events, with the Aust. Speedcar Champ's on again, so I enquired and eventually we did using two computers and gear again for the February meeting. As far as I know, that any computer has been used at a speedway in Australia for point scoring system. When later on this year I will be finding out where the next Aust. Speedcar Champ's being held I would like for some one in that state to do it with the program provided by WAVZ and subsequent years.

In the last few years, WAVZ has had the rise and fall of membership and at the moment, we stand at six on the book as a bunch of dedicated enthusiasts which meets once a month.

What, another disassembler? But, you have already got one? This one is different!

This program is entirely written in machine code. It actually runs about 40 times FASTER than D.S.E.'s disassembler (or any one else's). It will disassemble any program that you can BLOAD into memory. It works with any VZ configuration. It disassembles even the 88 extra Z80 opcodes that Zilog doesn't admit to.

PRICE? ONLY $25.00: Tape and disk verions available.

Price includes hardcopy manual. Interested? You may purchase this program from Peter Hickman, for address see below.

** ** V Z   M O D E M   S O F T W A R E ** **

Did you want to talk to other computers via a modem? Did you buy the DSE Terminal Eprom, only to discover that it only works with tape. It only allows you to print files, not save them or send them!

Your problems are solved! The Hickman brothers, Peter and Andrew, have a brand new project which will allow you to send, receive & save files via a modem. It works with disk!

SALE PRICE: $25.00 ONLY

Included are instructions for the hardware modifications.

A small modification is needed to your disk controller. Your user group may help you modify your computer to use this exciting new software! If you have the Function Keys Mod as well, then you will be able to send extra ASCII characters such as:-

    < ! > ~ _

The manual is supplied on disk for you to print out with your disk version of E & F Wordprocessor. If you do not own an E & F wordprocessor program, please enclose another $5.00 (total $30.00) for photocopying and postage of the manual.

FOR PURCHASE OR INFORMATION CONTACT:

Peter Hickman PO. Box 8 Werrington NSW 2747

NOTE: AS OF THIS ISSUE COPYRIGHT ON PATCH 3.3 REVERTS BACK TO DAVE MITCHELL. ON BEHALF OF HUNTER VALLEY VZ USERS GROUP OUR SINCERE THANKS GO TO DAVE FOR MAKING IT AVAILABLE TO US AND HELPING THE CLUB SURVIVE THIS LONG THROUGH HIS GENEROUS EFFORTS. YOU'RE ONE OF A KIND DAVE, THANK YOU.

PATCH 3.3 WRITTEN BY DAVE MITCHELL WILL CONVERT YOUR E & F TAPE WORD PROCESSOR FOR FULL DISK USE WHILE RETAINING ALL ORIGINAL FUNCTIONS. BELOW ARE ADDED DISK COMMANDS & FUNCTIONS :-

LOAD, SAVE, ERASE, RENAME, DIRECTORY, INITIALIZE, UPDATE, DRIVE 1 & 2, SOFTWARE SHIFTLOCK & IMBEDDED PRINTER CONTROL CODES PLUS CTRL+P WHICH BYPASSES PRINT MENU AND PRINTS TO SCREEN OR PRINTER. A ROUTINE IS ALSO PROVIDED TO CONVERT YOUR BASIC PROGRAM OR SOURCE CODE FILES INTO WORD PROCESSOR FILES.

PATCH 3.3 HAS PROVISION FOR FAST SAVING AND LOADING OF TEXT DATA TO AND FROM DISK USING BLOCK SAVE/LOAD TECHNIQUES. PRINTER CONTROL CODES CAN BE SAVED TO TAPE OR DISK ALONG WITH YOUR TEXT.

BSTWP.F - THIS UTILITY PROVIDED WITH PATCH 3.3 WILL CONVERT BASIC PROGRAMS AND ED/ASS. SOURCE CODE FILES INTO WORD PROCESSOR FILES.

SYSTEM REQUIREMENTS - VZ 300 + 16K RAM PACK - VZ 200 + 26K

PRICE - AUS/NZ AU$20.00 - UPDATE - AUS-$10.00 - NZ-AU$11.00. UPDATING AVAILABLE ONLY TO PREVIOUS PURCHASERS OF PATCHES.

EXTENDED DOS V1.5 — $15.00

UPDATED VERSION WITH EXTRA COMMANDS ADDED :-

OLD COMMANDS - MERGE, DIRA, DIRA, DIRB, LDIRB, OLD, OLD., DEC, HEX, STATUSA AND LSTATUSA. STATUSA AND LSTATUSA ALSO WORKS WITH VERSION 1.0 DOS.

NEW COMMANDS :-

MENU - LOADS AND RUNS BINARY OR TEXT MENU PROGRAM FROM DISK.
CODE - SIMPLIFIES USING PRINTER CONTROL CODES DIRECTLY OR FROM WITHIN A PROGRAM.
LTAB - IS FOR SETTING OF LEFT MARGIN.
MOVE - MOVES BASIC FILE FROM DISK TO CHOSEN MEMORY ADDRESS.
UPD - ERASES OLD FILE AND SAVES WITH SAME FILE NAME.

MENU/FILE COPIER — $15.00

THIS UTILITY WILL READ YOUR DISK DIRECTORY AND PRESENT YOU WITH SEVERAL OPTIONS. USING THE CURSOR YOU CAN RUN/BRUN ANY PROGRAM OR SELECT FILE COPY, REN, ERASE, DRIVE 1 OR 2, ETC. BESIDES COPYING TEXT AND BINARY FILES ALL OTHER FILES CAN BE COPIED AS WELL EXEPT FOR DATA FILES.

NOTE: DAVE MITCHELL OWNS COPYRIGHT ON THESE PROGRAMS.

FOR PURCHASE OR INFORMATION CONTACT DAVE MITCHELL - (079) 27 8519

24 ELPHINSTONE STREET NORTH ROCKHAMPTON QUEENSLAND 4701 AUST.

FOR INFORMATION OR DEMONSTRATION IN NEWCASTLE AREA CONTACT :-
JOE LEON - (049) 51 2756 - 22 DRURY STREET WALLSEND NSW 2287

** ** CONTRIBUTIONS TO THE JOURNAL ** **

IF YOU ARE THINKING OF CONTRIBUTING TO THE JOURNAL THE PREFERED FORMAT IS BASIC LISTINGS, WORD PROCESSOR OR SOURCE CODE FILES ON TAPE OR DISK. FILES FROM THE FOLLOWING WORD PROCESSORS CAN BE ACCEPTED :-

E & F TAPE OR DISK PATCH 3.1-3.3, WORDPRO CARTRIDGE, WORDPRO PATCH, MOST SOURCE CODE FILES AND ALL QUICKWRITE WORD PROCESSOR FILES.

** ** CLUB MEETINGS — ALL WELCOME ** **
FIRST FRIDAY OF MONTH

VENUE - JESMOND NEIGHBOURHOOD CENTRE MORDUE PARADE JESMOND 2299
       (REAR STOCKLAND MALL - BIG W)

JUNE 7 - LAST MEETING AT JESMOND NEIGHBOURHOOD CENTRE
          144K RAM EXPANSION DEMONSTRATION . . .
          BASIC - MACHINE CODE & ASSEMBLY CONTINUED . .. .

** ** FUTURE MEETINGS — NEW VENUE ** **

DUE TO FALLING LOCAL MEMBERSHIP THE GROUP HAS DECIDED THAT AFTER JUNE 7 IT WILL NO LONGER MEET AT JNC AS THE HALL HIRE IS GETTING TO EXPENSIVE FOR REMAINING MEMBERS. FROM JULY ON WE WILL MEET AT JOE LEON'S PLACE OR OTHER MEMBERS PLACES AS DECIDED BY MEMBERS.

JOE LEON 22 DRURY STREET WALLSEND 2287 (049) 512 756

MEETINGS WILL BE ONCE A MONTH AS BEFORE WITH THE DATES AS SET OUT BELOW. BECAUSE OF SOME MEMBERS HAVING TO WORK SHIFTWORK MEETING DATES WILL BE ADJUSTED TO ACCOMODATE THEM. SO PLEASE CHECK WITH JOE LEON FIRST BEFORE COMING OUT.

JULY 5 - AUG 2 - SEPT 6 - OCT 4 - NOV 1 - DEC 3

** CLUB COMMITTEE & SUBSCRIPTIONS **

PRESIDENT - ROSS WOODS - SECRETARY/EDITOR - JOE LEON
